

REQUIRED COVID PROTOCOL

Dear International Academy Guest,

Please **read carefully** the following Covid protocols for the upcoming International Emmy Awards and surrounding events.

All event attendees will need a 'SafePass' from ParaDocs Worldwide to attend any and all events.

Each attendee will need to **Sign Up** using the '**Event Code**' **EMMYS** and upload a valid form of **Identification card** (passport or driver's license), **vaccination proof** (at least 2 shots), and a **negative covid test result** (taken in the NY Metro area, no earlier than 72 hours before the first Academy event you are planning to attend).

Only **tests which generate a result in the form of a PDF** will be accepted.

This means that if you choose to do a Rapid Antigen test, you must choose a brand such as 'BinaxNOW™' which generates a PDF test result which you will be able to upload to the SafePass Platform.

Local urgent care clinics throughout NYC such as [THIS ONE](#) or a ParaDocs medic will be able to provide these results as well.

If you wish to schedule a 'ParaDocs Concierge' service to administer a test, please visit www.paradocsiv.com.

In order to begin completing the above detailed process, and access the 'SafePass' platform, please click [HERE](#)

Thank you for your cooperation as we try and make our events as safe as possible for all.

We look forward to welcoming you!
